

RESOURCEIVEPE

Navigating the Bermuda Triangle

IT • Procurement • Finance

Private Equity owned companies are tasked with:

- Achieving top and bottom-line growth
- Improving operational efficiencies
- Performing in ambiguous M&A environments

As companies grow, IT Procurement becomes more difficult due to multiple stakeholders:

CIO Stay apprised of technology and market changes; architect for technology and financial outcomes

CPO Recognize and understand the nuances and land mines of IT procurement

CFO CapEx vs. OpEx with focus on increasing EBITDA
